HAS LIVED HERE LONG TIME

Nearly 75 Years a Resident and Has Seen Many Changes.

The following letter from G. W. Rains show him to be a close second to A. Dorton in length of time he has resided in the county. One who knows Mr. Rains well has this to say of him: "Mr. Rains is our oldest and one of our VERY BEST citizens, a man that is not talked about as we know nothing against him. He has made a respectable living, not knowing the pain of want, and this living has been made from the soil, either directly or indirectly. He has not jockeyed or used unfair means to attain what he has but HONESTY has been his watchword. A splendid example of perseverance and confidence."

Mayland, Tenn., April 5th, 1915.

Editor Crossville Chronicle,

Dear Sir:—I have been a reader of your paper off and on since 1894.

I do not wish to place or force myself into the limelight in these, my declining years, but at your request will say that the place where Cumberland county now is has been my home continuously for the past nearly 73 years, being born at what is known as the Rains Place two miles south of here in June, 1842, at which place I lived with my parents until I was married to Miss Ollie Johnson of this place and located where I now live.

My present place of residence is what is familiarly and widely known as The Johnson Stand, on the old Walton road or turnpike leading from Nashville to Knoxville. The house was built eighty or more years ago and was known as I have said as The Johnson Stand. Later, after the death of the original proprietor, it was known as The Widow Johnson Stand, was used as an inn or stopping place for travelers plying trade and moving to and from the East. I have heard Aunt Patsy Johnson say that in her young days, six-horse teams were hardly ever out of sight of each other in the daytime, moving settlers to Nashville. I have, myself, known as many as 600 head of hogs to be kept over night here on the way to market.

The house, as it stands, is practically the same shape and size that it was eighty years ago, having the same wall and foundation and is in a good state of preservation and a comfortable residence.

Among pioneer occurrences might be mentioned the killing of the man Fugot, three miles west of here. I was at the place where he was killed and on the ground at the time of the inquest. This was in May, 1857.

We have on our place, that might be of interest to some of the rising generation, as relics, but have in time been indispensable utensils, and used here, a pair of the original pot hooks used in cooking on the fireplace, waffle irons with long handles like tongs and used for the same purpose, a cast lamp, having two flaps and used to burn hog's lard as a lighting fuel, giving a blaze at each side, making as my son has it, a "double header," also an original flax spinning wheel and a complete loom, having the necessary sieves, harness, shuttles, quills, etc.

Since I have been here the country has made considerable progress, especially in the way of populating the plateau. In my younger days this was the only place on the Walton route settled between the Brady place, nine miles west of here, or near Monterey, and Crossville, except the residence of James Walker, where Pomona Road now is. Crossville was a landmark only for the presence of Jim Scott, who was the proprietor of the only store near here at the time. The Walker mentioned as living where Pomona Road now is, was the father of Captain James Walker, of the Confederate army.

On the road running north and south and crossing the Walton road here, known as the Rose road, settlements were few and far apart, there being a settler at the Bledsoe Stand, 16 miles north of here and none south to the Sparta road, ten miles south of here. I would suggest that the population of the present acreage of Cumberland county would have been at that time between 500 and 600. It will be understood that there was no Cumberland county then, as this was the junction of four counties, namely, Fentress, Overton, Morgan and White, the corner of the four counties being at my barn. Property was much cheaper then than now. Our nearest railroad station then was McMinnville, fifty miles south of Sparta. We had no banks at that time nearer than Nashville or Knoxville, and so far I have made out without borrowing money to tide me over financial stresses. I have

made my living on the farm and by raising cattle and hogs and selling on such markets as we were favored with. The best of steers sold for from \$15.00 to \$18.00 and never higher than \$20.00, the only market being in Virginia and the transportation being awlays on foot. I have seen Daniel Cox start from here with as many as 1000 long horned steers for the Virginia markets. We had no market for hogs except to drive them to Atlanta, Georgia, where corn fed, fat hogs brought five cents per pound. The buyers paid 2-1-2 cents here. The speed made with a drove of hogs was nine or ten miles a day.

My parents came from Kentucky to Tennessee, bringing with them my oldest brother, J. Madison Rains, of Pomona. After settling here there was born to them five girls and two boys, none of whom are living except myself and my brother mentioned. My wife was born in Putnam county in about the year 1857 and came here when three years old and has lived nowhere since except in the house where we now live.

The old Walton road, running past my door is in the original channel and traveled daily.

I am acquainted with many of the older residents of the county and will be pleased to read letters from them.

G. W. Rains.

MAKE GOOD WORK POSSIBLE.

You cannot do good work while your bowels are sluggish or your liver torpid. Wm. O. E. Bielke, Mgr. Scott Hotel, Hancock, Mich., says, "I gave Foley Cathartic Tablets a thorough trial, and find them a mild but safe cathartic." Foley Cathartic Tablets never gripe or cause nausea. They do away with that drowsy, dull, tired feeling and are wholesome, cleansing and healthful. Most satisfactory for stout persons. For sale by Reed & Burnett.

That you will vote, talk and work for a bigger, better, brighter town.

That you will help to make this a good town so the town can make good.

That you will increase the value of your property by improving its appearance.

That you will say something good about this town every time you write a letter.

That you will invest your money here where you made it and where you can watch it.

That you will not point out the town's defects to a stranger nor fail to point them out to a neighbor.

That you will keep your premises cleaned up and your buildings repaired as a matter of both pride and profit.

That you will brag about this town so much that you will have to work for this town in order to keep from being a liar.

That you will take half a day right now to pick up the odds and ends around the place and turn them into either use, money or ashes.

That you will contribute as much money as you can afford and as much enthusiasm as anybody, to any movement to develop the town's resources.

That you will make friends with the farmer, if a town man, or with the town folks, if a farmer, and help work together for the good of the community of which this town is the center.

Dr. King's New Life Pills will clean up the liver and give you new life. 25c at your druggist. 3.
